Dorottya Burmeister

Frontend Developer

Results-driven frontend developer with a passion for creating engaging and user-friendly web applications. Strong problem-solving abilities and a keen eye for detail, ensuring high-quality code and seamless user experiences. Committed to staying up-to-date with the latest frontend technologies and best practices. Seeking opportunities to leverage my skills and contribute to dynamic development teams

Experience

Frontend Developer

Datastep Hungary Kft. *Budapest, Hungary*

Aug 2022 - May 2023

- Joined the team of the development of an audit software written in Angular, where I fixed badly-designed old and created new functionalities.
- Fixed bugs in a government website written in Vue.js.
- Created the company's website in Wordpress to which I designed the layout as well in Figma.
- Created Landing pages for various customers.

IT Support

cargo-partner Kft. *Budapest, Hungary*

Nov 2020 - Aug 2022

- Solving all IT related issues software and hardware, managing JIRA tickets
- Managed all company devices including laptops, tablets, phone systems and network configuration
- Working closely with the 3rd level support team.
- Setting up new workstations and configuring accesses

Frontend developer Intern

butopea.com *Budapest, Hungary*

Jun 2019 - Sep 2019

- Created landing pages for the webshop.
- Wrote JS and JQuery plugins for openCart.

Education

Bachelors of Science in Computer Science

University of Szeged *Szeged, Hungary*

Sep 2019 - 2023

- I gained great understanding of the basics of numerous programming languages, AI, machine learning, computational theories and algorithms.
- As my Bachelor's Thesis I created an Angular web-application for property listings with functionalities such as search, upload and save properties. The final product is a serverless application hosted in Firebase and MongoDB.
